PRODUCT RELEASE NOTE

ATHENA

Version	1.1.13.1	Server	Production
Date of Release	30-Apr--2025	Release No	1.0

HIGHLIGHTS	
Technical Rearchitecture	Athena architecture has been configured for ● Data Isolation ● Backup and Recovery ● Security - Access, IAM (Permissions), Network, Data Encryption ● Auto Scaling ● Observability & Monitoring
Enhancements	Minor enhancements.
Bug Fixes	Minor bug fixes.
NEW FEATURES	
Technical Rearchitecture	Athena architecture has been configured for ● Data Isolation - segregated non-production and production environments at the physical layer. Non-production and production environments run on separate servers to ensure complete isolation. ● Backup & Recovery - system configured for daily backups. ● Security: Access - Principle of Least Privilege. Access is restricted to the minimum required for users and applications to perform their functions. ● Security: IAM (Permissions):Developers - Granted only essential permissions required for their tasks on AWS. ● Security: IAM (Permissions):Applications - assigned minimal access rights necessary for operation. ● Security: Network - Backend servers and databases are hosted in a private network, inaccessible directly from the internet. Firewall Rules (Security Groups) - Traffic is permitted only on required ports. Data in Transit - All data transmitted over the internet is encrypted using HTTPS. ● Security:Data Encryption (At Rest) - Data stored in systems is encrypted using AWS KMS (Key Management Service). ● Auto Scaling - to ensure optimal performance and reliability. Based on real-time demand, the system seamlessly scales up during peak usage to handle increased traffic. ● Observability & Monitoring - Tracks performance, detects issues, and enables rapid response with real-time alerts.
ENHANCEMENTS	
Party Details	Displays total amount due including taxes and maximum number of days past due
Global Search	Results include Inventory in addition to parties, contracts and invoices.Seach by item / assets serial number
BUG FIXES	
Import	Tax rate import error fixed
Automated Test	Error in creating loan through automated testing fixed
KNOWN ISSUES	

PRODUCT RELEASE NOTE

None
