| **ENHANCEMENTS** | |
| **User Guide** | Search across pages of the online user guide |
| **Account Codes** | Map account codes to account class and subclass for accounting reporting. Added account codes for fees and expenses |
| **Account Rules** | Account rules for expenses are defined under a new product type, 'General,' as they are not associated with contracts |
| **Loan Contract** | Create loans with 0% interest and specify the payment start date |
| **Reports** | Renamed report types Contracts Register > Contracts, Invoices Register > Invoices, Receipts Register > Receipts, Inventory Register > Inventory, Tax Report > Tax, and Auditlog Report > Audit. Created a new report type, 'Accounting,' with accounting entries, trial balance, and balance sheet in it. |
